

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

1(original). A package comprising a base web comprising a polymeric film or sheet having at least one recess therein and with a packaged item therein, and a sealing web sealed to the base web and covering the recess, the sealing web having a strength which substantially prevents the packaged item from being pushed therethrough on applying force to the recess in the base web, a portion of the package where the base web is sealed to the sealing web having two substantially parallel lines of weakness positioned so that said portion can be folded towards a portion of the sealing web and a corner of the package can be used to puncture the sealing web so that the packaged item can then be pushed through the sealing web.

2(original). A package according to claim 1, wherein the sealing web comprises a metal foil adhered to a polymeric web.

3(original). A package according to claim 2, wherein the metal foil comprises aluminum.

4(currently amended). A package according to claim 2 ~~or claim 3~~, wherein the polymeric web comprises polyethylene terephthalate.

5(currently amended). A package according to ~~any of the preceding claims~~ claim 1, wherein the polymeric film or sheet comprises polyvinyl chloride.

6(currently amended). A package according to ~~any of the preceding claims~~ claim 1, wherein the polymeric film or sheet has been thermoformed.

U.S. National Phase of PCT/GB04/03717
Preliminary Amendment dated: August 2, 2005

7(currently amended). A package according to ~~any of the preceding claims~~ claim
1, wherein the polymeric film or sheet has been heat sealed to the sealing web.
